

When seconds count, you can count on

CodeRED is a FREE emergency notification service provided to all residents within Charlottesville and Albemarle County that will notify you of emergency information through **phone calls, text messages, emails and social media**. The system will be used to keep you informed of local events that may immediately impact your safety. As a local resident, the Charlottesville-UVA-Albemarle County Office of Emergency Management encourages you to take action and register your contact information (cell phone, home phone, email address, etc.) for this service and verify your home or work location during the enrollment process so we may target notifications that directly impact your home or business.
