

The Old Mills Trail is located along a section of Albemarle County's Rivanna River Greenway. This Greenway and trail system is proposed and actively being developed to run from Darden Towe Park at Pantops downriver through Shadwell and Milton to eventually meet with Fluvanna County's Heritage Trail where future connections to the proposed James River Heritage Trail are possible.

The Rivanna Blueway refers to the series of river access sites managed by Albemarle County Parks and the City of Charlottesville Parks.

In 1973 the Rivanna River was the first in Virginia to be designated a Scenic River and through the service of the Rivanna Conservation Society and other citizen volunteer efforts the Rivanna remains a beautiful river.
