1. Presented by Rachel.
2. Overview and discussion of land use designations with particular attention to Rio29 Small Area Plan.
3. Mentioned possibility of creating a new Land Use designation between Neighborhood Density Residential and Urban Density Residential.

Liaison Updates

Daniel Bailey:

1. Discussed Form Base Code (FBC) & Optional Overlay for Rio29 Small Area Plan presentation to Planning Commission.
2. Possible incentives by county to develop by FBC
3. Civic Space & traffic plan – next project for Long Range Planning team

Rachel Falkenstein:

1. FBC draft presentation to BOS at March 17 meeting
2. E. Rio Rd sidewalk project back to bid process
 - a. Expected to close bids Mar 3
 - b. 3 projects bundled for bidding

Other Business & Watch list check-in:

1. Marty sent 3 items from watch list to Ned for follow up
2. Marty Davis asked to modify input for Carrsbrook as follows

There seem to be two problems.

First, when water comes down through Woodbrook during a heavy and prolonged rain, it washes debris over the new sewer access road and the erosion prevention cloth fence and deposits the debris along the hillside of the properties abutting the road as well as at the base of Carrsbrook Rd. where it makes a turn. This debris should be removed and check the body of water to see if other work needs to be done in order to alleviate the problem.

Second, the section of Carrsbrook Rd., as it comes down the hill east of Clark Ln and Marlboro Court, when viewed from the new sewer access road, looks as if the asphalt road is becoming eroded and undercut. It's quite narrow there with little berm. This needs to be checked.
