

COUNTY OF ALBEMARLE STAFF REPORT

Project Name: AFD202400007 Carter's Bridge District Review	Staff: James Van Vranken, Planner
Agricultural and Forestal District Advisory Committee Meeting: November 4, 2024	
Planning Commission Public Hearing: December 17, 2024	Board of Supervisors Public Hearing: February 5, 2025
Proposal: Periodic review of the Carter's Bridge AF District.	Comprehensive Plan Designation: Rural Areas

Periodic Review of Agricultural and Forestal Districts

As established in the Code of Virginia, a district may continue indefinitely, but it must be reviewed by the County not more than every 10 years to determine whether the district should be continued. Before being considered by the Board of Supervisors, a district is reviewed by the County's Agricultural and Forestal District Advisory Committee and the Planning Commission. Both the Advisory Committee and the Planning Commission provide recommendations to the Board as to whether the district should be terminated, modified, or continued.

Once it has received the recommendations of the Advisory Committee and the Planning Commission, the Board conducts a public hearing. After the public hearing, the Board may terminate, modify, or continue the district. If the Board continues the district, it may impose conditions on the district different from those imposed on the district when it was created or last reviewed. Landowners within a district receive notice of this process, including notice of any proposed different conditions.

When a district is reviewed, land within the district may be withdrawn at the owner's discretion by filing a written notice with the Board at any time before the Board acts to continue, modify, or terminate the district.

New Policy for District Reviews

In November 2018, the Board updated Section 3-201 of the County Code to clarify that AFD parcels without development rights should no longer be accepted into the districts.

District review standards require the County to use the criteria in 3-201 when conducting a review. This includes subsection (F)(7), which states that it is County policy not to include parcels without development rights in the districts. Based on this policy, all parcels without development rights will be recommended not to continue in the districts during review.

Also in November 2018, to avoid subjecting owners of such parcels to rollback taxes without warning,

the Board directed staff to implement a plan to:

- Renew districts for a five-year period, rather than for 10 years (one time).
- Notify landowners of parcels in reviewed districts that are enrolled in open-space use valuation but that have no development rights that:
 - Their parcels may be removed at the end of the five-year review period; and that
 - They have the option to withdraw from the open-space use valuation now to avoid roll-back taxation and fees when the parcels are removed.

Some districts are now reaching the end of their five-year review period. Staff will therefore make five-year or ten-year renewal recommendations based on whether there are parcels in the district that are enrolled in open-space use valuation, have no development rights, and whose owners have not previously been notified that they will not remain in the district. If there are, staff will recommend a five-year review period and issue warnings; if there are not, staff will recommend the standard ten-year review period.

C. Review. The district is reviewed once every five years and will next be reviewed prior to September 18, 2024.

The District is located mostly to the north and southeast of Keene, on the Scottsville Road (Rt. 20) (see Attachment A), and includes 73 parcels and 6,099 acres. One withdrawal request has so far been received.

Agricultural and Forestal District Significance: Of the 6,099 acres in the Carter's Bridge District, 4,883 acres have soils listed as particularly important for agriculture in the Comprehensive Plan.

Land Use other than Agriculture and Forestry: In addition to agricultural and forestal uses, the Carter's Bridge District includes approximately 74 addressable structures. (The majority of these structures are dwellings, but any barns or other large structures with addresses may be included.)

Local Development Patterns: The District consists of a mix of open land and forest. There are 23 parcels

in the District, totaling 3,885 acres, that are under conservation easements. A total of 1,973 acres in the District are in the County’s use-value taxation program, indicating that they are in agricultural, forestal, horticultural, or open-space use.

Comprehensive Plan Designation and Zoning Districts: The District is entirely designated as Rural Areas in the Comprehensive Plan, and the parcels included in the District are zoned RA Rural Areas.

Environmental Benefits: Conservation of this area will help maintain the environmental integrity of the County and aid in the protection of agricultural soils, mountain resources, critical slopes, and wildlife habitat.

Withdrawal: Landowners may withdraw their parcels from districts by right during a renewal at any time before the Board of Supervisors takes final action to continue, modify, or terminate the district. Landowners were notified of the renewal by mail on October 16, 2024.

We have so far received one withdrawal request:

Two of the parcels (highlighted) are in Open Space taxation. The owner of 112-16K was notified of the policy on January 23, 2020, and is recommended not to continue. The owner of 114-2 has not been notified (the parcel was not in Open Space during the last review), so is recommended to continue in the District for five years. All other parcels are recommended not to continue.

Staff Recommendation: Staff recommends that the Committee recommend renewal of the Carter's Bridge District, with the above-noted withdrawal and removals, for another 5-year period.
