

COUNTY-WIDE CERTIFICATE OF APPROPRIATENESS

Building permits in which the proposed change occupies 50% or less of the altered elevation

DESIGN CRITERIA	
Proportion	Alteration must be in proportion with the existing elevation.
Roof form	Roof form must be consistent with the existing patterns of scale and proportion of the roof form of the existing building.
Materials	Materials must be consistent with the existing patterns of scale and proportion of the existing materials. No new vinyl.
Colors	Colors must be coordinated with existing colors.
Planting	Trees and shrubs may be required to integrate the alteration into the building and site.
