

COUNTY-WIDE CERTIFICATE OF APPROPRIATENESS

Mechanical, electrical, & plumbing permits associated w/ new buildings or building additions

DESIGN CRITERIA		
	All equipment locations should be as approved with the ARB Certificate of Appropriateness.	
	Equipment locations that differ from the ARB-approved CofA must meet the criteria established for new equipment.	
	Wall-mounted equipment should be located on walls not visible from the EC. If the equipment must be placed on walls that are visible from the EC, the equipment should be fully screened with architectural elements that are coordinated with the building. Supplemental planting may be required.	
NOTE	All equipment guidelines apply.
