High Risk FPM

What's an FPM?

- ❖ A team meeting for your family that includes people who care about your family.
- ❖ An open and creative way for parents, family, friends, professionals, and DSS to work together to make a plan to keep your children safe and stable.
- ❖ The meeting is structured and led by a facilitator who is not involved with your case. The facilitator will make sure everyone can participate and the meeting stays focused.

How do FPMs work?

- ❖ Everyone uses respectful, open, and honest communication that respects the privacy of the family.
- ❖ The family team will discuss the purpose of the meeting.
- ❖ The team will talk about your children and family's strengths to help build the plan.
- ❖ The team will then discuss the concerns and your family's needs.
- ❖ Next, the team will "brainstorm" and suggest ideas to support your family.
- ❖ Finally, the team will make decisions and create a step-by-step plan to accomplish the goals.
- ❖ The team tries to reach an agreement on the plan.
- ❖ Everyone will leave the meeting with a printed copy of the plan.

Why is an FPM important?

Because...

- ❖ Children do best when they are connected to family.
- ❖ Family participation improves decision making and outcomes for children.
- ❖ All families have strengths and are experts on themselves.
- ❖ Teamwork is the best way to make decisions about child safety, stability, permanency, and well-being.
